"We researched 17 schools in the area and decided Windsor Charter Academy was the best fit for our children. We have elementary, middle, and high school-aged children so we needed to find an environment where the needs of each of them could be met. School clubs, band, orchestra, athletics, and the arts were important factors in choosing Windsor Charter Academy. There is something for each of our children, and the resources and support they have received has been amazing!"
— K. Anderson, Windsor Charter Academy Parent
