Windsor Charter Academy Pathways

At Windsor Charter Academy, we prepare each high school student for their post-secondary experience by helping them define a career path. In our Pathways Program, students select a Pathway early in their high school experience. Whether a student wants to **learn a trade, attend college, serve our country, or become an entrepreneur, students have a support system and are mentored over the course of four years.** Upon graduation, students are fully prepared to transition into their post-secondary journey.
